12.7. Apprentice Level Training:

12.7.1. Constraints. Computers, software, and support equipment are required for Integrated Maintenance Data System (IMDS).

12.7.2. Impact. IMDS training can not be accomplished to the prescribed levels in apprentice training. This will cause training to be delayed and field units will bear the burden of this training when IMDS is fielded. This deficiency could cause a decrease in production effectiveness and significant mission impact.

12.7.3. Resources Required. Three classrooms are available for training. Each classroom will require 1 instructor workstation, 8 student workstations, 1 Portable Maintenance Aid (PMA) per student, a specialized training server, and other classroom equipment such as white boards, projection devices, etc.

12.7.4. Action Required. Obtain needed computer and support equipment. (OPR: 362 TRS/TRR; OCR: HQ AETC/DOOI).

13. Five Level Training:

13.1. Constraints. There is no formal information (AFRs, AFMANs, AFIs, TOs) developed for writing CDCs on IMDS."

13.2. Impact. CDCs for IMDS can not be developed for 5-level upgrade training.

13.3. Resources required. Technical and official information approved by HQ USAF.

13.4. Action required. Technical and official information on IMDS must be developed from contractor information. (OPR: HQ USAF/ILMM)."

14. Seven-Level Training:

14.1. Constraints. There is no formal information (AFRs, AFMANs, AFIs, TOs) developed for writing CDCs on IMDS.

14.2. Impact. CDCs for IMDS can not be developed for 7-level upgrade training.

14.3. Resources required. Technical and official information approved by HQ USAF.

14.4. Action required. Technical and official information on IMDS must be developed from contractor information. (OPR: HQ USAF/ILMM)"
